CBE PAYMENT TERMINAL

What is CBE Payment Terminal?

CBE Payment Terminal typically processes credit and laser card transactions up to six times faster than existing terminals.

By installing CBE Payment Terminal, you can significantly reduce your transaction costs and provide a more effective service to your customers.

Whether your business requires a counter top or mobile unit, CBE offers the best in class solution utilizing broadband and GPRS technology.

Key features:

- **High Speed Transactions:**
Authorisation time is typically 3 - 4 seconds combined with high speed receipt printing
- **Universal Compatibility:**
It works independently of cash registers and EPOS systems.
- **Connectivity:**
Operates over broadband or GPRS
- **Efficiency:**
Multiple terminals may be connected over single broadband line.
- **Acquirer Independent:**
Easily switch between banks
- **Functionality:**
Facilitates following features -
 - o Debit/Credit Card, including cash back
 - o Gratuity
 - o Shift/Batch Reporting
 - o DCC
 - o Fuel Card Compatibility

Benefits:

- **Significant Cost Savings:**
By using a single broadband connection instead of multiple dedicated phone lines, you could save as much as €240 per year per terminal.
- **Increased Transaction Speed = Improved Customer Service**
- **Improved Reporting:**
Daily transaction reports automatically emailed or available via Web portal. Reports may also be consolidated.
- **Greater Coverage:**
For GPRS option, there is much better coverage using GPRS rather than Bluetooth for bars and restaurants. This solution is also very effective for van sales, pizza and home delivery.

Improved Reporting:

- Daily transaction reports automatically emailed or available via Web portal. Reports may also be consolidated.
