

CBE RECRUITING DUE TO INCREASED EXPORTS

IT Systems Engineers

CBE are one of Europe's leading innovators in retail technology serving the supermarket, convenience, forecourt and hospitality sectors. Due to unprecedented growth in our export markets, CBE are looking to recruit a number of IT Systems Engineers.

The Role:

- Installation, configuration and user training on CBE's Retail and Hospitality IT Systems
- Technical support of the IT systems, both on-site and remotely via the CBE Support Centre
- Position may involve frequent travel to export markets
- Successful applicants will join an enthusiastic team that have made CBE the number one Point of Sale specialists in the UK and Ireland

The Ideal Candidate:

- Degree / Diploma in IT, Computer Science or Business (candidates who have a proven IT capability will also be considered)
- Knowledge of SQL, Networking and Microsoft Operating Systems
- Experience in Retail/Hospitality IT Systems or EPoS an advantage but not essential
- Previous EPoS support experience would be an advantage
- Willing to spend periods of time abroad for the duration of specific projects
- Excellent written and oral skills are essential
- Full clean driving licence

The Package:

- Attractive package in line with candidate's experience
- Full training provided
- Excellent opportunities for career progression

Apply, in confidence, with full Curriculum Vitae no later than Wednesday 22nd March, 2017 to:
Mr. Shane McGowan, Systems Director,
CBE, IDA Business Park, Claremorris, Co. Mayo.
